MINUTES

The Chair asked for input to the minutes of the February 20, 2024 board meeting. Zauss moved to approve the minutes from the February 20, 2024 meeting. Davis seconded and the motion carried unanimously. AYE: Cox, Chavez, Davis and Zauss.

DEPARTMENT REPORTS BY BOARD

Zauss reported that the WWTP continues to sample for the COVID study. They have done a lot of work around the digester, worked on the HVAC, and are removing old piping in the tunnels. They collected soil samples around the grassy areas, plowed snow, and collected 337 lab tests.

Chavez reported that the line maintenance crews repaired the RV dump yard hydrant, installed new brass fitting and reducers, ordered parts for stock and jobs. Crews set a 1-inch meter in the old industrial park, set another 1-inch meter at 4944 S 1000 E for the Mills, have cleaned out pump houses, marked and completed all blue stake requests, checked lift stations, helped with asphalt repairs, and helped Chris read meters.

Davis reported that the WTP water demand is down, but they are still working a day shift and a swing shift while receiving 600 gallons from Price. The District received an invoice from Amerigas dated 1/11/24 where they are charging PRWID for a tank rental from 8/19/22 through 8/18/23. We have contacted them many times to pick up their tank in 2021 so the invoice is in dispute. The basements lights are being changed to LED lights as well as in the filter area. Operators have been dealing with a lot of slush in the sand traps because of the winter storms.

MANAGER'S REPORT

Richens reported that he received another 2-week notice from another employee today. We are currently excepting applications for the Line Maintenance Dept., so staff would like to hire two of the candidates from this pool of applicants. Richens reminded the new board representatives that the District needs letters from the two cities authorizing these members being appointed to the board. Utah Retirement Systems has set Tier II limits at 10% going to employee's retirement by employer. Tier II employees are all those enrolling in URS after July 1, 2011. As of July 1, 2024, the retirement rate that will be required to be paid to URS for the employee will change to 10.75%. In the Legislative session all the entities were asking if URS can raise the limit or allow the entities to pick up the additional contribution. URS was fine with it, but the state did not act on it during this session. Richens talked with our URS representative today and she explained that the State of Utah is going to compensate their Tier II employees the extra 0.75%. Richens asked her if the District can compensate Tier II employees to their 401K to keep it in balance. The URS representative said that we would need to talk to our attorney. Richens is asking the board if it is okay to contact the attorney with those questions. He will try to have something for the next meeting. Richens gave a final legislative update of the new laws that passed in the legislative session that could affect the District.
